

## **SERTI Informatique Appoints New President**

**Montreal, March 12, 2014** – SERTI Informatique Inc. and its executive committee are proud to announce the appointment of Louis Laporte as SERTI's President. Mr. Laporte will now be responsible for all of SERTI's strategic decisions.

Louis Laporte began working at SERTI in 1988 as a programmer-analyst in charge of the Dealership Management Solution, SDS.

In 1991, he became an Associate and Project Manager and then Vice-President in 1997.

Today, Louis Laporte succeeds Jean-Marc Thibault, SERTI's Founding President. Mr. Thibault, who is looking forward to a well-deserved retirement, declares: "I am very pleased to announce the appointment of Louis Laporte to replace me in the functions I assumed for 39 years as President of SERTI Informatique Inc. Louis has been an associate for over 20 years and truly possesses the qualities required of a great business manager. Louis and the other associates have my complete confidence in bringing SERTI to new heights. Congratulations."

### **About SERTI:**

Founded in Montreal in 1975, SERTI Informatique Inc. employs 220 IT professionals. SERTI works in close collaboration with businesses of all sizes, offering its ever-expanding IT expertise to customers across Canada, in every field of activity.
